

✓ Belin at supper - not 35 men at 7:00
CIA - had good effort
he found Ruby his - detecter + car
Spector did because he was there
Belin did through cable - was
held back but succeeded after
conviction

✓ CIA commission - some of how
operative CIA was - offered
many things to do the same
matters but under more

✓ Tamm + was allowed to look at P. 4
in Abzug's office - made notes
of himself + inquired one p
me. (I was an insider on Bradley
Annals), Abzug to marry it
dead of get - in anti - Kennedy
sense, drawing his letter

2. In a hall in "Poyalty"
pictures he saw - no answer
in when it was. Date 399
from here. But why

to pass - any thing
sticks to his back - all his
sympathies as through any
was audible - didn't even
deny any thing. I said about
him a him a man -
Instructions except that the
walk told he didn't but
did not deny in 17:45
made Mark him for
little is not no

3) In general, if you say anything
is left what he said & believed
was connected with rights &
specimens of N.F.A. much

but many
When he accused me of un-
willingness I took on each
of his charges - less as a
point of personal privilege
& documented each one. He
had no response. When
he did not I said I'd
await his apology. He did
not.

6) The man is more psycho
more unthinking than
thought people. Impervious
to reason - unimpaired
by any thing. Never responds,
never blinks - poorly hidden
high self concept - only he knows
I asked him to join me. He said
every thing should be reliable.
I said some should not but
~~some~~ more like
would lead to more argu-
ment & the country would
be more. Why not full
investigation? He said he
hadn't time in few
days

5/ At end, privately, I tried to tell
him I had worked longer, the
discharge + more more, + in
what I hoped he would take
as a friendly private
suggestion on discharge. I must
be extremely careful about
what he said. He started to
say what I think would
have been that he knew more +
then changed + said only as
he turned + walked away
"You're wrong"

Question: why did Belin
interject the CIA and the
fact that there was a CIA
Office in Dallas at the time
of the Assassination when
my question specifically
referred to 3 ~~secret~~ sightings
of Secret Service agents
in Dealey Plaza and if this
IMPOSSIBILITY was ever reconciled?

No answer to my question and
his answer was non-sequitor
ramble about Spooks being
places?! Was the inference
(as I immediately interpreted it)
that the SS were actually
on the spot CIA because

that added more to my curiosity.
He, in fact, didn't mention SS.
at all in his answer and
more so, it all seemed
related to Rockefeller Commission!
What does he mean?
